24V household solar integrated machine

Overview

What is a 2400W hybrid solar inverter?

This 2400W Hybrid Solar Inverter boasts a 3000W Solar Inverter capability, ensuring that even during peak loads, your power supply remains uninterrupted. With its integrated MPPT charge controller, it maximizes energy harvest from solar panels, offering an Off-Grid Solar Power Solution that is both smart and reliable.

How does a hybrid solar inverter work?

Converts the sun's direct current (DC) electricity into usable alternating current (AC) for your appliances and stores excess solar power for later use with this hybrid solar inverter. Ultra simple to use with LCD display and featuring a high-speed cooling fan, this solar inverter will be your reliable solution for a smooth energy supply.

What is a multi-function hybrid inverter?

Multi-Function Hybrid Inverter: This is an off grid multi-function inverter/charger, combining the functions of an inverter, solar charger, and battery charger to offer uninterruptible power support with portable size. Equipped with PWM solar charge controller to maximize and regulate DC power from the solar array to charge the battery bank.

How does a vevor solar inverter work?

To provide you with a continual power supply, the VEVOR solar inverter features pure sine wave. A sine wave is an advanced form of electricity that stays consistent to help your devices work better and reduce the chance of any weird electrical problems or interferences. The VEVOR hybrid solar inverter also features a cooling fan.

What is a vevor hybrid solar inverter used for?

With its advanced mechanism, the VEVOR hybrid solar inverter is perfect for

powering a variety of appliances. So feel free to use this inverter to operate mini-fridges, televisions, lights, radios, heat pumps, and more. AC Voltage Regulation (Batt.

What is a 120V AC 5% solar inverter?

AC Voltage Regulation (Batt. Mode): 120V AC \pm 5% Converts the sun's direct current (DC) electricity into usable alternating current (AC) for your appliances and stores excess solar power for later use with this hybrid solar inverter.
