60KW inverter weight

Overview

GoodWe SMT 50-60kW Series inverter is ideal for medium and large-scale commercial installations. Harvest solar energy and generate environmental-friendly power for increased return on investment brought by high yields with your commercial PV system.

GoodWe SMT 50-60kW Series inverter is ideal for medium and large-scale commercial installations. Harvest solar energy and generate environmental-friendly power for increased return on investment brought by high yields with your commercial PV system.

GoodWe SMT 50-60kW Series inverter is ideal for medium and large-scale commercial installations. Harvest solar energy and generate environmental-friendly power for increased return on investment brought by high yields with your commercial PV system. Its unique fuse-free design makes it.

The 50 & 60kW (55 & 66kVA) medium power CPS three phase string inverters are designed for ground mount, rooftop and carport applications. The units are high performance, advanced and reliable inverters designed specifically for the North American environment and grid. High efficiency at 98.8% peak.

It is precisely this systemized approach that makes the Sunny Tripower 60 so unique and guarantees a high level of performance along with maximum flexibility in system planning and design. No other inverter weighing only 75 kg with an output of 60 kW offers this. With its compact design, the Sunny.

Engineered for Large Commercial & Industrial Businesses: Native 277/480V 3 phase output simplifies installation and reduces complexity for larger commercial and industrial buildings. AC & DC Coupling Capability: Supports both AC and DC coupling, enabling seamless integration with existing solar PV.

The 60K INVERTER comes with everything you need to install it. Nicely packaged for added efficiency. With Sol-Ark's remote access features and app you are never out of touch to quickly repair or adjust any system without being on site. Supports simultaneous DC and AC coupling. Boosts PV energy.

S5-GC (50-60)K three-phase series string inverter are suitable for the installation of three-phase input pv system of commercial and industrial PV plants. Adopt 5/6 MPPT design to provide a more flexible configuration scheme and higher generation efficiency. Perfect commercial site monitoring.
