Canadian energy storage  
cabinet exports**

## Overview

---

On March 4, 2025, the U.S. imposed tariffs of 25% on Canadian exports, and 10% on energy product exports from Canada. Are Canada's counter tariffs affecting energy trade?

Similarly, Canada's counter tariffs have generally avoided most energy equipment imports. On March 7, 2025, President Trump first implemented a carve out such that all CUSMA-compliant energy trade will not be effected by the tariffs.

How have US tariffs impacted Canada's energy exports?

To date, U.S. tariffs have largely circumvented Canada's energy exports, including oil, gas, uranium and electricity. Similarly, Canada's counter tariffs have generally avoided most energy equipment imports.

How will the US enact a tariff regime affect Canada?

With the U.S. confirming the enactment of a tariff regime imposing 25% on all Canadian goods and 10% on energy exports, Canada's export-reliant sectors face immediate and significant adjustments. In the short term (30-90 days), expect market volatility, supply chain disruptions, and rapid strategic responses by businesses and policymakers.

Are Canadian goods exempt from counter tariffs?

As such, goods that merely make their way into Canada via a route through the U.S. remain exempt from the Counter Tariffs. The tariff landscape is changing rapidly. Tariffs between Canada and the U.S. remain extremely volatile.

What are Canadian and US tariffs?

To assist with some of the confusion, we have developed the following timeline of Canadian and U.S. tariffs that highlight some of the key changes implemented for goods entering the Canadian or U.S. borders: To date, U.S.

tariffs have largely circumvented Canada's energy exports, including oil, gas, uranium and electricity.

Did Canada remove tariffs on US goods?

Canada removed counter tariffs on U.S. goods, with the exception of those on steel, aluminum and autos. Effective September 1, 2025, Canada removed 25 per cent tariffs on certain goods imported into Canada from the United States. This includes removing tariffs on: Canada's tariffs on steel, aluminum, and automobiles remain in place.
