Overview

Armpower is a special purpose company owned by Renco and Siemens Project Venture. Who buys Armenia's Energy?

The energy produced will be purchased by Armenia's national power company. Renco, flanked by Siemens, financed 60% of ARMPOWER, for a total of 56.9 million dollars. Siemens covered 40%, amounting to 37.9 million dollars.

Who provides electricity in Armenia?

From 2006 to 2022, Electric Networks of Armenia (ENA) was the sole electric power distributor in the country, and still provides electricity to most users. It is Armenia's largest employer and serves approximately 985,000 electric utility customers.

Who financed a power plant in Yerevan?

Renco has developed a public-private partnership for the design, construction and management for 25 years of a 254 MW combined-cycle power plant in Yerevan, through project financing. The energy produced will be purchased by Armenia's national power company. Renco, flanked by Siemens, financed 60% of ARMPOWER, for a total of 56.9 million dollars.

What is Armenia's electricity mix?

Armenia's electricity mix includes 40% Gas, 30% Nuclear and 20% Hydropower. Low-carbon generation peaked in 2022.

How has the energy sector changed in Armenia?

Armenia's energy sector has moved from a state of severe crisis in the early 1990s to relative stability today. A combination of policy, legal, regulatory, and institutional reforms have had good results.

What are the energy reforms in Armenia?

The reforms went into effect starting February 1, 2022. The principal bodies involved in energy sector governance in Armenia include the Ministry of Territorial Administration and Infrastructure (MTAI), which is responsible for overall energy policymaking; the Ministry of Environment; the PSRC; and the Committee on Nuclear Safety Regulation (ANRA).
