

## A-Core Container

# Assembly lithium battery pack business

## Overview

---

What is the process of lithium-ion battery pack manufacturing?

The process of lithium-ion battery pack manufacturing involves meticulous steps from cell sorting to final testing and assembly. Each phase plays a critical role in ensuring the performance, safety, and reliability of the battery module.

What is a lithium ion battery pack?

A battery pack consists of multiple cells connected in series or parallel. How to make lithium-ion batteries?

It's always been an interesting topic. The production of lithium-ion batteries is a complex process, totaling Three steps. The cell sorting stage is a critical step in ensuring the consistent performance of lithium-ion batteries.

What do we have for lithium-ion battery pack assembly?

For lithium-ion battery pack assembly, we offer complete solutions. This includes different sizes of barley paper, battery cells, plastic holders, nickel strip, handheld spot welder, PVC, and high-temperature resistant adhesive tape. We also provide rolls of various widths and cut the length as per customer requirements.

What are the requirements for lithium ion battery manufacturing?

**Safety Compliance:** All processes must comply with global battery safety standards like UN 38.3, UL 2580, and ISO 26262. The process of lithium-ion battery pack manufacturing involves meticulous steps from cell sorting to final testing and assembly.

Who makes lithium ion battery packs?

Our lithium ion battery pack manufacturing team can design and assemble prototypes, small production runs as well as large scale mass production.

AceOn predominantly build Lithium Ion 18650 battery packs, using well known 18650 Li-ion cell manufacturers such as Samsung, LG Chem, Panasonic and Sanyo.

What is battery pack assembly?

The battery pack assembly is the process of assembling the positive electrode, negative electrode, and diaphragm into a complete battery. This involves placing the electrodes in a cell casing, adding the electrolyte, and sealing the cell.
