BESS price for energy storage power generation in Brazil

Overview

Is there a Bess project in Brazil?

Image: A BESS project in Brazil from ISA CTEEP. The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025.

What is driving Brazilian energy storage demand?

An unreliable grid is driving Brazilian energy storage demand. The world is set to have more than 760 GWh of energy storage capacity by 2030, led by Chinese and United States markets dominated by utility-scale systems.

How does Bess work in Brazil?

In May 2024, the Brazilian Ministries of Development and of Science and Technology issued an ordinance to provide tax and non-tax incentives for the production of BESS in Brazil. The ordinance establishes the concept of a 'basic production process' and a points-based system for lead and lithium batteries.

What was the last grid-scale Bess in Brazil?

The last grid-scale BESS that Energy-Storage.news reported on in Brazil was a 30M/60MWh non-wires alternative (NWA) project from transmission system operator (TSO) ISA CTEEP. Energy-Storage.news' publisher Solar Media will host the 3rd annual Energy Storage Summit Latin America in Santiago, Chile, 15-16 October 2024.

Are energy storage products coming to Brazil?

Holu's Costa observed batteries were prominent during the Intersolar South America trade show held in São Paulo at the end of August 2024. She added, hundreds of manufacturers are bringing energy storage products to Brazil.

What businesses are deploying Bess in Brazil?

A few other businesses exist in Brazil as well, such as Micropower, Aldo Solar and YouOn, for instance. The deployment of BESS can take various forms, and business initiatives may vary. To address this, the National Electric Energy Agency of Brazil (ANEEL) has identified a regulatory gap and initiated a three-phase roadmap.
