Bahamas Solar Rotation

Overview

To maximize your solar PV system's energy output in Nassau, Bahamas (Lat/Long 25.0582, -77.3431) throughout the year, you should tilt your panels at an angle of 22° South for fixed panel installations. Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

Who supports solar power in the Bahamas?

This goal is supported by the Inter-American Development Bank (IDB) and the Bahamas Development Bank (BDB). Currently, solar power makes up less than 1% of all energy generated in The Bahamas. Oil is responsible for nearly all power generation with a 99% share of electricity production.

How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.

What does the Bahamas Ministry of Economic Affairs do?

The Bahamas Ministry of Economic Affairs is the entity responsible for providing vision, strategic direction, policy, and information related to the movement of financial resources, economic diversification and growth.
