## Overview

---

What is the best foundation for shipping container homes?

Since pier foundations are economical, easy to install, and require minimal excavation, they're arguably the best foundation for shipping container homes. If you decide that you need some sort of basic foundation for your shipping container, a pier foundation will most likely be your best bet.

Why do shipping containers need a ground foundation?

Ground foundations act as anchor points for your structure, helping to distribute the shipping container weight evenly across the surface underneath, such as soil, concrete, gravel, or another substrate. Foundations are necessary for shipping containers since they can be placed almost anywhere.

What is a shipping container Foundation?

Whether you're dealing with slightly less firm ground, suitable load-bearing ground, loose stone, or soft soil, we have your foundation covered. Shipping container foundations generally come in four main foundation types: pier, pile, slab, and strip.

Do modified shipping container structures need different foundations?

In the world of modified shipping container structures, no one foundation solution is right for every application. Different container structures—ranging from large, multi-unit structures to single-unit containers—need different foundations. Want to take a closer look at all of the foundation options (and recommendations)?

Let's dive in!.

Should a shipping container be placed on the Right Foundation?

Placing a shipping container on the right foundation will keep it level on a long-term basis. If your shipping container's weight is not evenly distributed across

its corner castings, your container may shift and warp over time, leading to serious structural problems.

Should you build a shipping container house on a foundation?

If your shipping container is going to stay in the same spot long term, you'll want to rest it on a foundation that will keep it level and away from groundwater permanently. Long-term foundation options are especially important when you're building a shipping container house.
