Battery cabinet 16a

Overview

How much weight can a lithium ion battery storage cabinet hold?

Max. Shelf Load Max. Shelf Load: 75 kg Max. Shelf Load: 75 kg We are a supplier of high-quality Lithium Ion Battery Storage Cabinet, featuring a powder-coated steel chamber with self-closing, oil-damped doors for safe storage and controlled battery charging environments.

What is a battery cabinet?

Battery cabinet that includes Lithium-ion batteries, Battery Management System (BMS), switchgear, power supply, and communication interface. Reduces the battery room size and increases tolerance to a wider operating temperature range, which allows you to decrease the capacity of the cooling solution.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.

Why should you choose a battery cabinet?

Our battery cabinets are sophisticated and offer modular solutions that can withstand even temperatures and earthquakes when it matters. **VENTILATION:** Our cabinets are specially designed for the use of stationary batteries. One important factor here is ventilation, both for cooling and for the removal of hydrogen (H₂).
