Brazil power base station bidding

Overview

Will Brazil bid for hydroelectric power plants next year?

REUTERS/Marta Nogueira/File Photo Purchase Licensing Rights BRASILIA, Aug 22 (Reuters) - Brazil's government plans to solicit two rounds of bidding next year for hydroelectric and fossil-fuel thermal power plants to supply generating capacity, according to the country's official gazette published on Friday evening.

Could a Bess auction boost renewables in Brazil?

The launch of a dedicated BESS auction in Brazil could help boost the growth of the technology in the country and further enhance the use of renewables such as solar PV and wind.

Is there a Bess project in Brazil?

Image: A BESS project in Brazil from ISA CTEEP. The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025.

What was the last grid-scale Bess in Brazil?

The last grid-scale BESS that Energy-Storage.news reported on in Brazil was a 30M/60MWh non-wires alternative (NWA) project from transmission system operator (TSO) ISA CTEEP. Energy-Storage.news' publisher Solar Media will host the 3rd annual Energy Storage Summit Latin America in Santiago, Chile, 15-16 October 2024.
