Shanghai (ANTARA/PRNewswire)- Huawei Digital Power, in collaboration with SchneiTec, has successfully commissioned Cambodia's first-ever TÜV SÜD-certified grid-forming energy storage project, marking a key milestone in the country's transition toward a sustainable energy future. As a leading energy.

The proposed project will (i) install a 200 MW/400 MWh of utility-scale BESS at a substation in the north of Phnom Penh to supply ancillary service for stabilizing the transmission grid and improving power quality, avoiding curtailment and (ii) enhance technical and regulatory capacity of EDC for.

Cambodia approves 23 power sector projects, including 2 energy storage plants, 12 solar projects. According to TrendForce, Cambodia is accelerating the development of clean energy to reduce its reliance on imported energy, enhance the country's energy security, ensure reliable and affordable power.
