

A-Core Container

CdTe solar panel hollow series

Overview

, a considered a hazardous substance, is a waste byproduct of mining, smelting and refining sulfidic ores of zinc during , and therefore its production does not depend on PV market demand. CdTe PV modules provide a beneficial and safe use for cadmium that would otherwise be stored for future use or disposed of in landfills as hazardous waste. Mining byproducts can be converted into a stable CdTe compound and safely encapsula.
