# Czech high-efficiency solar module project

## Overview

---

ČEZ has announced an ambitious plan to construct its largest solar power plants on the sites of two former power stations in Northern Bohemia, a move poised to significantly boost the country's renewable energy capacity. What are the largest solar PV power plants in the Czech Republic?

Listed below are the five largest active solar PV power plants by capacity in the Czech Republic, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to provide a complete picture of the global solar PV power segment. Buy the latest solar PV plant profiles here. 1. Ralsko Solar Plant.

Where is the Czech solar PV project located?

The Czech Solar pv has been operating since 2011. The 20MW solar PV project is located in , the Czech Republic. Scatec have the equity stakes in this project. Buy the profile here. For more details on the latest solar PV plants, buy the project profiles here.

Which country has the most solar PV power plants?

Of the total global solar PV capacity, 0.19% is in the Czech Republic. Listed below are the five largest active solar PV power plants by capacity in the Czech Republic, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to provide a complete picture of the global solar PV power segment.

Where is veprek solar plant located?

The 35MW Veprek Solar Park solar PV power project is located in Central Bohemian, the Czech Republic. FVE CZECH NOVUM has developed the project. It was commissioned in 2010. The project is owned by FVE CZECH NOVUM. Buy the profile here. 3. Sevetin Solar Plant The Sevetin Solar Plant is a 29.90MW solar PV project.

How much does a solar plant cost in China?

A total cost of almost CZK 2.7 billion was invested for the project completion (around 140 million USD). It is the biggest solar station in the country and by 2012 ranked among the world's top 50 PV plants. The plant is comprised of 5 sections, each with a capacity of 12.869, 14.269, 4.517, and 6.614 megawatts with a total capacity of 38.3 MW.

Where is Brno airport solar PV park located?

The Brno Airport Solar PV Park solar PV project with a capacity of 21.20MW came online in 2010. Jufa Group of Investment have the equity stakes in the project. It is located in South Moravian, the Czech Republic. Buy the profile [here](#).
