Danish PV Inverter Company

Overview

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

What is the most beautiful PV system in Copenhagen?

UN city complex, hailed as a Star in Copenhagen's harbor was completed in 2014. We're proud to deliver the PV systems installed on the top of building. This project was awarded at the Intersolar 2014 as "the most beautiful PV system since 2002".

Who are DSE solar components distributors?

DSE is the official distributor for some of the well known solar components producers like Fronius, ABB, Steca, MorningStar, Grundfoss, Victron Energy, Hoppecke etc. Based on our in-depth PV technology knowledge and insight in the solar components market, we are capable of selecting the right quality products without any compromise.

Should Denmark be independent of fossil energy sources?

In the long term, Denmark must be independent of fossil energy sources, and since the operation of buildings accounts for approx. 40% of the total energy consumption in Denmark, it is necessary to have a tight but realistic strategy for both new construction and energy renovation of existing buildings.
