EU household solar power generation and energy storage equipment

Overview

What is the European energy storage inventory?

The Commission's European Energy Storage Inventory can help address this gap within Europe. Launched in March 2025, it is the first European-level tool of its kind, providing a real-time dashboard of energy storage levels in Europe, offering energy storage data across a full range of technologies.

Why should the EU invest in batteries?

It contributes to the EU's circular economy and zero pollution ambitions and strengthens our strategic autonomy on batteries. Beyond batteries and pumped storage hydropower, the EU ranks second, after the U.S., in the number of companies developing novel energy storage technologies and leads in liquid air energy storage.

Who is Sonnen energy?

Founded in 2010 and headquartered in Germany, Sonnen Energy is the only supplier in Germany to date that connects private home storage systems to form virtual power plants. Its services can save consumers up to 25 percent (grid price) on electricity costs.

Where does SSE Renewables operate?

SSE Renewables operates across the United Kingdom, Ireland, Continental Europe, and Japan. ENGIE UK is a utility company and Independent Power Producer (IPP) specializing in renewable energy generation, flexible energy storage, and energy supply solutions for businesses.

What is a residential battery energy storage system?

Residential battery energy storage systems (BESS) primarily serve two purposes for homeowners. First, they capture energy generated by solar panels and store it for use when needed, such as in periods of inclement weather or when grid electricity rates increase. Second, they can act as

backup generators, providing power during potential outages.

What is a household battery?

The “Household Batteries” segment includes the battery business of end customers, including household batteries, accumulators, chargers, portable power supplies (mobile power supplies) and lights, as well as energy storage devices. Main products: micro battery, household battery, energy storage system, etc
