

Overview

How big is Türkiye's energy storage capacity?

Türkiye's 35 GWh storage capacity accounts for grid-scale projects alone. Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe.

Where does Türkiye invest in energy storage?

Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe. Tokcan highlighted the importance of local expertise in manufacturing, system management, and maintenance to avoid dependency on foreign firms.

How much power will Türkiye have in 2035?

According to Türkiye's 2020–2035 National Energy Plan, Türkiye's power generation capacity will reach 189.7 GW in 2035 (a 79% increase from 2023). Türkiye's share of renewable energy will increase to 64.7% with solar power capacity increasing 432% and wind capacity increasing 158%.

Can Türkiye become a regional hub for battery technology?

"We believe Türkiye can become a regional hub for battery technology, and our government is committed to making this a reality," Tokcan said. These efforts will position Türkiye as a leader in energy storage innovation, fostering collaboration and supporting renewable energy goals.

Do you need a license for solar energy in Turkey?

Turkish regulations stipulate that renewable energy investments of less than 5 MW do not require a license from the Energy Regulatory Authority (EMRA). Roof-top solar energy producers can sell their excess electricity to the grid at a maximum limit of 5 MW if they are production plant owners, and 10 kW if

they are homeowners.

Can a roof-top solar energy producer sell excess electricity?

Roof-top solar energy producers can sell their excess electricity to the grid at a maximum limit of 5 MW if they are production plant owners, and 10 kW if they are homeowners. Solar and wind energy investments receive customs duty exemptions, corporate tax deduction, and other incentives.

Energy storage design for solar power plants in Türkiye
