# Energy storage project investment and sale

## Overview

---

What are co-located solar and storage projects?

Co-located solar and storage projects usually feature a mix of the fixed and variable revenue sources, which continue to evolve as changes occur in regional energy regulations and markets.

What is New York's first bulk energy storage RFP?

Governor Kathy Hochul announced the launch of New York's first Bulk Energy Storage RFP, intended to procure one GW of bulk energy storage as part of New York's 6 GW Energy Storage Roadmap on July 28.

How do battery storage project developers make money?

Battery storage project developers can enter into contracts with utilities and other parties to offer these services in addition to contracts for the sale of electricity (see [Battery Storage Revenue Models: Fixed Price Contracts](#) and [Battery Storage Revenue Models: Variable Revenue Sources](#)).

Which energy storage companies are listing in Hong Kong in 2025?

Earlier in 2025, China's CATL—the top global battery producer—generated approximately HK 35.6B (USD 4.6B) on its debut trading day in Hong Kong, marking the year's biggest international listing. Additional key players in energy storage, such as Sunwoda and Hithium, are also considering listings in Hong Kong.<sup>12</sup>

What is the Maryvale solar and energy storage project?

Aug 15th: Gentari Renewables (Gentari) has started construction on the Maryvale Solar and Energy Storage project in New South Wales. This significant project, located in the Central-West Orana Renewable Energy Zone, involves a 243 MWp solar farm DC coupled with a 172 MW / 409 MWh BESS. Commercial operation is expected by early 2027.<sup>56</sup>

What is bulk energy storage & how can it help New York?

New York Secretary of State Walter Mosley said, “In looking ahead for the state's future, bulk energy storage can provide the ability to store excess electricity during times of lower usage or high renewable production and return that electricity to the grid during peak times when it's needed most.
