European 60kw inverter

Overview

What is a goodwe SMT 50-60 kW inverter?

GoodWe SMT 50-60kW Series inverter is ideal for medium and large-scale commercial installations. Harvest solar energy and generate environmental-friendly power for increased return on investment brought by high yields with your commercial PV system.

What is the best solar inverter?

With max. 15A DC input current per string, the SMT 50-60kW Series is compatible with different types of high-power modules, which ensures more solar power absorption making it one of the most productive inverters on the market. Up to 6 MPP trackers guarantee optimal energy production even in shade.

What is a SMT 50-60kw solar inverter?

SMT 50-60kW Series is a pioneering inverter for your business and value. 200V-950V wide input operating voltage range allows the solar system to start at an early stage, fully utilizing the daytime to maximizing solar powered energy generation. The fuse-free design without consumable parts significantly reduces the operating time and costs.

Why should you choose a goodwe solar inverter?

With high efficiency levels and up to six MPPT ports, a consistently impressive performance of the PV system is enabled. The inverter is easily transported and installed due it being compact and lightweight, and can be integrated with GoodWe's Smart Energy Controller SEC1000 for load monitoring and power export limit functionalities.
