

A-Core Container

France and Germany solar energy storage cabinet battery quantity battery factory

Overview

What is the largest battery-based energy storage site in France?

Featuring 27 containers, each with a storage capacity of 2.5 MWh, it can maintain power for over 200,000 homes for one hour. With a total storage capacity of 61 MWh, this is the largest battery-based energy storage site in France. The battery-based ESS facility at the Carling platform came on stream in May 2022 and comprises 11 battery containers.

How big is the battery storage market in Germany?

The Market for large battery storage systems in Germany has grown immensely in recent years. In 2023 alone, sales rose Federal Association of Energy Storage Systems (BVES) by 46% compared to the previous year, to more than 15,7 million euros.

How many battery storage systems are installed in Germany?

Battery Storage Boom: 1.2 Million Systems Installed Notably, battery storage systems, also essential for Germany's renewable energy transition, constitute a significant component of this ecosystem, with 1.2 million installed systems.

What is the largest European battery-based energy storage project?

In May 2023, we launched our largest European battery-based energy storage project at the Antwerp platform in Belgium. With its 40 containers, the site will develop a capacity of 75 MWh, which is equivalent to the daily consumption of almost 10,000 homes.

Why should you invest in large-scale battery storage systems in Germany?

The German market is currently very attractive for investments in large-scale battery storage systems. Therefore, we work together with our customers and partners on the successful implementation of our projects, thus creating the Basis for future-proof and sustainable value creation.

What percentage of European battery energy storage systems are lithium ion?

By battery type, lithium-ion commanded 92% of the European battery energy storage system market share in 2024; flow batteries are projected to expand at a 16.66% CAGR through 2030.
