For an entrepreneur entering the solar manufacturing sector, choosing a factory location is one of the most consequential decisions they will make. It extends far beyond securing a piece of land; it's about positioning the business within an ecosystem that will dictate its logistical efficiency.

Mandeure, Apr. 23, 2025 — DAS Solar, a leader in N-type PV technology, has officially broken ground on its first overseas 3GW module manufacturing facility in Mandeure, France. As a key milestone in the company's global strategy, this project demonstrates DAS Solar's firm commitment to Europe's.

Since 2023, BeePlanet Factory has partnered with Sirea to promote energy storage in France by integrating batteries from electric vehicles. This strategic alliance allows industrial and commercial companies optimize self-consumption, reduce energy costs and move towards a more sustainable model. At.
