Ghana 220V outdoor power supply

Overview

What type of power outlet does Ghana use?

Ghana uses power outlets and plugs of types D & G. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Be careful!.

Do I need a travel adapter for a Ghana Charger?

However, it is possible you'll need an adapter to plug the charger into a Ghana outlet. Ghana uses electrical outlets and power plugs of types D & G (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. Are the electrical outlets and power plugs in your country different?

.

What is the standard power socket voltage in Ghana?

All power sockets in Ghana provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Ghana if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

What voltage is used in Ghana?

The voltage used in Ghana is 230V with a frequency of 50Hz. If the voltage and/or frequency in your country is different, you may need a voltage converter if your hair dryer, hair straightener or curling iron is not compatible with this.

Do I need a voltage converter in Ghana?

If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in Ghana. The standard frequency in Ghana is 50Hz. If this frequency differs from the frequency used in your home country, please use caution when plugging in your devices.

Can I connect my laptop charger to an electrical outlet in Ghana?

Yes, you can connect your laptop charger to an electrical outlet in Ghana as long as the outlet is compatible with the charger's voltage and plug type. In Ghana, the standard voltage is 230V and the standard frequency is 50Hz.
