Guyana solar Energy Storage Investment Project

Overview

The deadline for applications is Sept. 26. Guyana Power and Light has launched a tender for an EPC contractor to build three solar plants in Guyana with a combined 15 MWp capacity and 22 MWh of battery storage. Applications are due by Sept. 26, according to the tender.

The deadline for applications is Sept. 26. Guyana Power and Light has launched a tender for an EPC contractor to build three solar plants in Guyana with a combined 15 MWp capacity and 22 MWh of battery storage. Applications are due by Sept. 26, according to the tender.

Sustainable energy generation in Region Two has taken a significant leap with the commissioning of the US\$10.4 million (\$2.2 billion) 5 megawatt peak (MWp) Onderneeming solar farm, the largest hybrid solar-plus-storage power station in Guyana. The new facility promises cleaner, more reliable.

Guyana Power and Light, a publicly owned utility, has kicked off a tender to select an engineering, procurement and construction (EPC) contractor for three solar plants with battery energy storage. The deadline for applications is Sept. 26. Guyana Power and Light has launched a tender for an EPC.

Guyana is taking a significant step forward in its renewable energy sector, investing GYD 885 million in solar energy projects across 21 villages. This ambitious initiative is a vital part of the country's comprehensive renewable energy strategy, which also encompasses solar farms, hydropower, and.

The 30,000 Solar PV Home Energy Systems (SHE) Project aims to expand renewable energy access in Hinterland and riverine communities that are not connected to the electricity grid. Region Nine, Upper Takutu-Upper Essequibo, June 04, 2025 - Access to affordable, reliable, and sustainable electricity.
