High-power outdoor power supply with water pump inverter

Overview

Which solar water pump inverter is available online?

The 5.5kW three-phase AC 220V solar pump inverter is now available online. This solar pumping inverter integrates advanced MPPT tracking for precise voltage detection and optimal performance. The solar water pumping system supports AC and DC input, with a DC voltage range of 300V~380V and a power factor >0.99.

What is a 15 hp water pump solar inverter?

15hp water pump solar inverter with MPPT control, AC 25A output at 3-phase, rated power 11kW, and DC voltage range (280V, 750V). 15 hp solar pump inverter with RS485 communication and IP20 protection, supports AC and DC input, works at (-10°C, 40°C).

What is a solar pump inverter?

A solar pump inverter converts the DC power generated by solar panels into AC power suitable for driving a water pump. Easy to use and install. Affordable price 7.5 kW (10 hp) solar pump inverter for sale, AC output 17A at 3-phase, recommended DC MPPT range (350V, 750V), DC voltage (280V, 750V).

What is the new solar water pump inverter Sp100 series?

After years of deep cultivation and exploration in the solar water pump industry, INVT has carefully developed a new solar water pump inverter: SP100 series. SP100 has comprehensively upgraded the usability, functionality, and performance of its existing solar water pump products.

How do I choose the best solar pump inverter?

To choose the best solar pump inverter, match inverter power and voltage with your pump's specifications, ensure compatibility with your solar panel output, and prioritize key features like MPPT, IP65 protection, and hybrid functionality.

Are solar pump inverters IP65 rated?

Solar pump inverters are often installed outdoors — in farms, fields, or rural infrastructure. An IP65-rated solar inverter is dust-tight and protected from water jets, making it ideal for: Choose an IP65 solar inverter for harsh environments like the Hober series to ensure long-term durability.
