Home Energy Storage Model 16500

Overview

In 2019, New York passed the nation-leading Climate Leadership and Community Protection Act (Climate Act), which codified some of the most aggressive energy and climate goals in the count.

What is a 16kWh backup power?

With a 16kWh capacity, it delivers reliable backup power, energy savings, and greater energy independence. Reliable Backup Power – Provides 16kWh of stored energy, enough to keep your home or business running during outages.

Are battery storage projects eligible for energy storage incentives?

The Program Manual [PDF] provides a full list of project eligibility and requirements. For battery storage systems above five MW of AC power, projects could be eligible for incentives through the Bulk Energy Storage Program. Additional details on both the Residential and Retail Energy Storage Incentive are available in the program manual [PDF].

What are residential energy storage incentives?

The Residential Energy Storage Incentives are available for contractors' installing storage on a new or existing home in New York State. Incentives are available for up to 25 kWh of storage capacity. The Program Manual [PDF] provides a full list of project eligibility and requirements.

Where can I find information about energy storage incentives?

Incentive details will be available on the Residential Energy Storage Incentive Dashboard and Retail Energy Storage Incentive Dashboard. The Residential Energy Storage Incentives are available for contractors' installing storage on a new or existing home in New York State. Incentives are available for up to 25 kWh of storage capacity.

Why is energy storage important?

Energy storage is essential for creating a cleaner, more efficient, and resilient

electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers. Energy storage is essential to a resilient grid and clean energy system.

How do I apply for a retail energy storage incentive?

Contractors and Builders can apply for this program separately through the NYSERDA Portal . The Retail Energy Storage Incentives are available for new commercial scale distributed (retail) energy storage projects up to 5 megawatts (MW) that are either located behind a customer's electric meter or interconnected directly to the distribution network.
