# Home Outdoor Power Solar

## Overview

---

Why should you choose a solar system for your home?

Seamlessly integrated home solar systems designed for peak performance. We carefully select high-quality panels, racking, and components to deliver reliable, clean energy that powers your home with precision and style. Maximize your solar investment by storing excess clean electricity.

Why should you buy a solar system?

Flexible financing and low monthly lease options can help you secure the best price for your solar system. By installing solar panels, you can also reduce your reliance on traditional energy sources. Power your home with emissions-free, renewable energy directly from the sun.

What is the best off-grid Solar System?

Our pick for the best off-grid solar system is AcoPower. This is followed by Renogy, WindyNation and more. Off-grid solar systems can cost anywhere from a few hundred dollars for basic setups to tens of thousands for powering an entire house, depending on your energy needs.

How does solar power benefit the environment?

Solar power benefits the environment. Adopting renewable energy helps to improve air and water quality and helps the country reduce greenhouse gas emissions that exacerbate climate change. DOE partners with national labs to develop innovations that lower the costs of solar energy.

Why is solar electricity a good investment?

Solar electricity gives you the power to own your energy production. Owning your solar system is a cost-effective option for millions of Americans, and new models for financing and community solar programs will enable households and communities that lack access to solar electricity to choose their energy future.

How much does an eco-worthy Solar System cost?

The entry-level one is a 130 watt system with a single, flexible solar panel and battery charger. The kit costs \$188.22. Its top-of-the-line setup includes 24 solar panels, four storage batteries and an inverter charger. The package costs \$12,874.99. Eco-Worthy also offers hybrid wind and solar kits.
