Honduras Enterprise Energy Storage Battery

Overview

The National Electric Power Company (ENEE) has selected a Chinese-Honduran consortium to design, supply, install, test, and commission a grid-connected battery energy storage system (BESS) at the Amarateca substation in the department of Francisco Morazán.

The National Electric Power Company (ENEE) has selected a Chinese-Honduran consortium to design, supply, install, test, and commission a grid-connected battery energy storage system (BESS) at the Amarateca substation in the department of Francisco Morazán.

The National Electric Power Company (ENEE) has selected a Chinese-Honduran consortium to design, supply, install, test, and commission a grid-connected battery energy storage system (BESS) at the Amarateca substation in the department of Francisco Morazán. Honduran state-owned utility ENEE has.

Last week (7 November) saw bids opened for a 75MW/300MWh BESS tender launched by the government of Honduras, in Central America. The public event marked the opening of bids for the energy storage procurement, called LPI-001-ENEE-UEPER-2024, for the 'Supply, installation, testing and commissioning.

It's 3 PM in Tegucigalpa, the tropical sun is blazing, and suddenly half of Central America's air conditioners cough and sputter like a vintage pickup truck. That's exactly what happened during the March 2025 regional blackout that left Honduras scrambling [4]. This wake-up call revealed why.

Recently, Windey, in collaboration with EQUINSA, a local Honduran power company, successfully won the EPC turnkey contract for Honduras' first energy storage project—the Honduras Energy Storage Project—marking a critical breakthrough of "first bid, first win" in its international energy storage.

Honduras has awarded a US\$50.2 million contract for a 75 MW battery energy storage system to the Chinese-Honduran consortium Windey-Equinsa. This project, selected through an international tender with six proposals, will be the

largest energy storage system in Central America once operational by.

According to the report by the media outlet *El Mundo*, the Honduran Minister of Energy, Erick Tejada, mentioned that the contract for the construction of a 75 MWh battery energy storage system, valued at \$50.2 million, was awarded to the Chinese-Honduran consortium Windey-Equinsa. According to the.
