Let's face it - warranties are like the instruction manuals we all ignore until something breaks. But in energy storage projects, these "boring" contracts can mean the difference between a profitable power asset and a \$10 million paperweight. Whether you're a solar farm developer, grid operator, or.

Taiwanese based Delta's lithium battery energy storage system (BESS) is a complete system design with features like high energy density, battery management, multi-level safety protection, an outdoor cabinet with a modular design. Furthermore, it meets international standards used in Europe.

Warranty period of container energy storage and free service is one year from date of purchase. If a failure occurs multiple times, the storage secure your sustainable business in the long run.
