How much does a square meter of solar panels cost in Bulgaria

Overview

Over the past three years, solar PV panel prices in Bulgaria have dropped by 22%, according to data from the Bulgarian Photovoltaic Association. This price shift mirrors global trends but comes with unique local twists - from government incentives to seasonal demand spikes.

The APSTE has highlighted that Bulgaria's state-imposed fees for solar panels and energy storage solutions are stifling progress towards sustainable energy goals. Currently, the fee for solar panels stands at BGN 0.90 (approximately EUR 0.46) per kilogram—over 11 times greater than similar charges.

Photovoltaic panels for electricity generation with 25-year warranty. We offer a wide variety of solar panels for roof or ground mounting that have high operational reliability. Photovoltaic panels are one of the main parts of any solar system and their role is to convert sunlight into electrical.

The construction of Bulgaria's largest solar power plant is due to be completed by spring 2023. The facility will generate green electricity with a peak capacity of 124 MW. The project for another segment, of 50 MW, is Chart 19: Bulgaria Power Generation Capacity Breakdown by Source (Fuel) Type in.

On average, there are 2,049 hours of sunlight per year (out of a possible 4,383), with a daily average of 5 hours and 36 minutes of sunlight. 1 In these areas of Bulgaria a photovoltaic system is theoretically expected to generate not less than 1300 kWh/year from each kWp installed. 2 In December.

Price list for installation of a solar installation, upon mandatory inspection:
1000 лв. 1100 лв. 1300 лв. The indicated prices are in Bulgarian levs, incl.
VAT. Installation From 3 to 5 days depending on the size and features of the
installation. Price list for installation of a solar.
