# Huawei Italy Energy Storage Industry Project

## Overview

---

Piedmont-based C&I solar company Albasolar and Huawei Digital Power signed a collaboration agreement to develop BESS, aiming to integrate industrial energy storage systems into energy optimization projects for the C&I sector by combining them with energy management systems.

Piedmont-based C&I solar company Albasolar and Huawei Digital Power signed a collaboration agreement to develop BESS, aiming to integrate industrial energy storage systems into energy optimization projects for the C&I sector by combining them with energy management systems.

The Italian company, which designs electricity self-consumption systems for commercial and industrial (C&I) clients, on Wednesday announced a strategic partnership with the Chinese manufacturer. The announcement of the decision by solar trade body SolarPower Europe to expel Huawei from its.

[Munich, Germany, May 6, 2025] At Intersolar Europe 2025, Huawei Digital Power hosted the FusionSolar Strategy & New Product Launch under the theme "Smart PV & ESS: Powering a Grid Forming Future." Welcoming around 300 global customers and partners, this launch highlighted all-scenario grid forming.

Three companies, including Huawei, have recently secured contracts, signaling a significant uptick in the European commercial and industrial energy storage market. As the world's second-largest market in this sector—trailing only China—the European commercial and industrial energy storage market is.

Huawei Digital Power has hosted a FusionSolar strategy and new product launch at the 2025 edition of Intersolar Europe 2025. Under the theme of "Smart PV and ESS: Powering a Grid Forming Future," the company welcomed some 300 global customers and partners, the launch highlighting all-scenario grid.

To meet the European Union (EU)'s energy and climate greenhouse gas emissions targets by 2030, EU countries need to establish a 10-year

integrated national energy and climate plan between 2021 and 2030. Italy has one in place called PNIEC. PNIEC aims for renewables to contribute to 40% of gross.

Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three regions—Lazio, Puglia, and Sardinia. This move underscores the country's growing commitment to grid resilience, energy.
