

A-Core Container

**Inverter sine wave can be
connected to the grid**

Overview

A grid-tie inverter converts (DC) into an (AC) suitable for injecting into an , at the same voltage and frequency of that power grid. Grid-tie inverters are used between local electrical power generators: , , , and the grid. To inject electrical power efficiently and safely into the grid, grid-tie inverters.

Inverter sine wave can be connected to the grid
