Is New Zealand s 5G communications using shared base stations

Overview

Does New Zealand have a 5G network?

The details of this agreement include: New Zealand's 3 mobile network operators (MNOs) each receiving 80 MHz of spectrum in the 3.5GHz band. This is sufficient radio spectrum for all three MNOs to operate nation-wide 5G networks.

Does New Zealand telco Spark have a 5G network?

New Zealand telco Spark has entered a long-term partnership with Maori Spectrum and telecommunications service provider Tū Ātea, securing exclusive rights to 20 megahertz of C-band (3.5GHz) spectrum for 18 years to boost its 5G network.

What is a 5G network in Aotearoa New Zealand?

The 5G network is more technologically advanced and implementation has begun throughout the world and here in Aotearoa New Zealand. All cellular networks use radio waves to transmit data. Like light, radio waves are a type of electromagnetic radiation. Radio waves have been used in NZ for radio since the 1920s and cell phones since the 1980s.

How much does 5G cost in New Zealand?

Network operators generally have higher charges for 5G broadband plans than 4G broadband plans, which cost around NZD 5-20 more per month. Network operators currently do not have separate charges for 5G for mobile plans. Two network operators, Spark and Vodafone, specify that 5G is included in mobile plans at no extra cost for a limited time.

Will 5G speeds increase in New Zealand?

"As we activate this additional spectrum, we expect 5G speeds to increase by up to 25% and we will be able to support up to 20% more traffic on our 5G network," she explained. Mateparae noted that Spark's 5G usage has grown

79% over the past year, with coverage now reaching more than half of New Zealand's population.

How will New Zealand benefit from 5G?

Thanks to the government's work program, more New Zealanders will be better served by 5G connections, ensuring access to the same quality of mobile services as those in New Zealand's more populated areas. For more information, see the government's press release. 10.
