Italian energy storage power supply prices

Overview

Italy's residential storage market saw average system prices drop 12% YoY to €650/kWh in Q1 2025, partly due to the phasedown of the 110% Superbonus subsidy [5] [6]. Key factors reshaping pricing: Wait, no—that last figure might surprise you.

Italy's residential storage market saw average system prices drop 12% YoY to €650/kWh in Q1 2025, partly due to the phasedown of the 110% Superbonus subsidy [5] [6]. Key factors reshaping pricing: Wait, no—that last figure might surprise you.

Jinko Power's country manager for Italy has told pv magazine Italia the €12,000 (\$14,000) per megawatt-hour, per year to €15,000/MWh/year price for storage set in Italy's Mercato a termine degli stoccaggi (MACSE) auction does not reflect current European project prices. Rather, bidders are betting.

Clean Horizon has released its latest Energy Storage Price Forecast for Italy, providing valuable insights into one of Europe's most dynamic emerging markets for battery storage. Italy is accelerating its energy transition with ambitious targets and a robust policy framework, aiming to deploy 71.5.

of over 9GW/71GWh of energy storage in Italy. The scheme totalling EUR17.7 billion (US\$19.5 billion) will provide annual payments covering investment and operating costs for those developing, building and by the European Commission at the end of 2023. Italy will promote investments in utility.

With the acceleration of the construction of large storage projects in 2024 and a budget support of 17.7 billion euros, the energy storage auction mechanism (MACSE) is expected to be launched in 2024. The energy storage market in Italy will quickly switch to a market structure dominated by large.

A Sicilian lemon grove powered entirely by solar panels and a sleek battery storage system. No, it's not a Fellini film—it's 2025's Italy, where energy storage equipment demand has skyrocketed by 61% since 2024 [3] [4]. Let's break down the latest pricing trends, government incentives, and.

With 71GWh of new storage capacity approved through 2033 under the EU-backed €17.7 billion plan [1] [6], Italy has become Europe's most dynamic battery market. But what's driving the price fluctuations in this Mediterranean hotspot?

Italy's residential storage market saw average system prices drop.
