

## A-Core Container

# Italian power generation container

## Overview

---

### What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

### What is a type 6 generator container?

Our Type 6 generator containers consist of two or three pre-assembled modules, depending on the engine type and the application. The overall package (gas engine, container, and auxiliary components) is available for 65, 70, 75 and 80 dB (A) in 10m (surface sound pressure level according to DIN 45635).

### Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

### How many Eurogen power generating sets are there?

12 Eurogen Power generating sets in continuous operation for the local users of the islands. Our technical support is always available for timely interventions and repairs, remote control, remote support and plant maintenance. Generating sets manufacturing: for over 40 years, we have been designing generating sets for emergency and self-production.

### What generating sets does Eurogen offer?

Generating sets for ordinary or reserve power. Generators powered by natural methane and biogas. 12 Eurogen Power generating sets in continuous

operation for the local users of the islands. Our technical support is always available for timely interventions and repairs, remote control, remote support and plant maintenance.

What is the standard ventilation for genset containers?

The standard ventilation is designed for ambient temperatures from -25°C to +40°C. The genset containers can be equipped with several additional features to enable operation at lower temperatures on request. Type 6 containers are available with a similarly broad range of options that we offer for the Type 2 / 3 / 4 containers.
