

A-Core Container

Korean 5kw inverter company

Overview

What is a 5kw inverter & load handle capacity?

This inverter is 5kw Inverter But Load Handle Capacity is 6Kw. With its 27A PV input current, the ALPHA PRO is well-suited to the increasing current output of modern solar panels. Its solar capacity is 9kw. It also accommodates a broad PV input voltage range of 120VDC to 450VDC, which reduces the number of solar panels needed and conserves space.

Which inverter is best for a solar system?

String inverters are the most economical among other options and are a proven inverter technology. These inverters are also the easiest to maintain as they are easy to access. If a solar system uses a string inverter, it will produce limited electricity.

What is a Dik solvert PV inverter?

DIK's Solvert PV inverter is produced strictly based on DIK's own electricity conversion technology and conflat, applied the IT (Information Technology). It measures, analyzes and diagnoses all possible cases in real time in order to prevent failure.
