How much does Shagaya energy cost in Kuwait?

Kuwait hopes to sign an implementation agreement with China in the first quarter of 2026 for phases three and four of the Shagaya renewable energy project, with a combined capacity of 3.2 gigawatts (GW), Al-Zamel said. (\$1 = 0.3054 Kuwaiti dinars).

Will a large-scale venture with China improve Kuwait's Electricity Services?

Kuwait expects a significant improvement in electricity services once several major projects come online, including a large-scale venture with China, Adel Al-Zamel, the undersecretary of the Ministry of Electricity, Water and Renewable Energy said during the signing event.

Does Kuwait still use fuel oil?

Exports of relatively cleaner products such as jet fuel and diesel have increased since 2019, and fuel oil exports have declined.<sup>62</sup> Kuwait can produce more middle distillates after its Clean Fuels Project refinery upgrade project, and it uses fuel oil domestically for its power plants.

What is Kuwait's electric power capacity in 2021?

Kuwait's electric power generation capacity was 20 gigawatts (GW) in 2021 and rose 7% between 2016 and 2021.

How will Kuwait increase its natural gas production in 2024?

Kuwait intends to increase its natural gas production through the development of natural gas fields not associated with crude oil production.<sup>34</sup> As part of this goal, Kuwait is expanding the Jurassic natural gas field production in the northern region by 110 Bcf in 2024 (Table 2).
