## Overview

---

Does Lebanon have solar power?

Myriam Boulos—Magnum Photos for TIME Lebanon went from generating zero solar power in 2010 to having 90 megawatts of solar capacity in 2020. But the major surge happened when a further 100 megawatts were added in 2021 and 500 megawatts in 2022, according to the LCEC's Khoury.

Where are solar panels located in Lebanon?

Atop several campus buildings at Sagesse University in Furn El-Chebbak, a suburb southeast of Beirut, row upon row of solar panels gleam under the bright afternoon sun. The Catholic university, home to some 3,500 students, is one of the many organizations in Lebanon that have turned to solar power.

How many solar companies are there in Lebanon?

ME Green was one of the early solar-power companies in Lebanon, but the sector has ballooned, from around 150 registered businesses in 2020 to more than 800 today, according to the LCEC's Khoury. These companies work on everything from small household systems—which start at \$2,000 to \$3,500—to projects involving hundreds of panels or more.

Are Lebanon's solar companies paying a lot for fuel?

We are also paying a lot for fuel.” ME Green was one of the early solar-power companies in Lebanon, but the sector has ballooned, from around 150 registered businesses in 2020 to more than 800 today, according to the LCEC's Khoury.

Are the mazlouns in Lebanon getting solar panels?

The Mazlouns are hardly alone in Lebanon. Solar panels have been cropping up across the country over the past two years, from the rooftops of rural households to urban apartments, and from atop family-run businesses to buildings housing national and multinational organizations.
