

A-Core Container

Liquid-cooled battery cabinet assembly price and base station

Overview

What is pknergy liquid cooled energy storage system?

The PKENERGY liquid-cooled energy storage system solution can be equipped with a self-developed battery pack balancer, increasing the system's usable capacity by 10%. This further unlocks the potential of the liquid-cooled BESS, maximizing its performance and efficiency.

What is a liquid cooling system?

The advanced liquid cooling system ensures a cell temperature difference of less than 3%, effectively preventing system overheating and enhancing energy efficiency. This optimized cooling system allows for stable performance and improved longevity of the battery energy storage system.

Are containerized battery cooling systems a good investment?

Compared to traditional containerized battery cooling systems, energy consumption is reduced by 30%, and the lifespan is extended by 2 years, making it a more promising solution for return on investment.

What is pknergy Bess (battery energy storage system)?

PKENERGY has launched a new all-in-one liquid-cooled BESS (Battery Energy Storage System) series. The upgraded solution features globally leading long-life CATL LFP cells, offering a lifespan of up to 8000 cycles at 70% DOD (Depth of Discharge).

How many batteries can a CATL battery store?

This energy storage solution utilizes a flexible modular design, with the ability to parallel up to 10 battery units, easily meeting any capacity requirement, large or small. CATL is the world's largest supplier of lithium batteries by shipment volume and a partner to many renowned companies.

How many temperature detectors does a battery module have?

Each battery module has 8 temperature detectors. There are 2 racks that fit in a single battery cabinet, 9 slots in each battery rack to accommodate 8 battery modules and total 1 BSPU (Battery Switch & Protective Unit). Racks are connected in parallel and paired with a system BMS to meet the power and energy requirements of the application at hand.
