

A-Core Container

**Liquid-cooled energy storage
battery cabinet should be
125kWh**

Overview

The 125kW 261kWh Liquid-Cooled Battery Energy Storage System by GSL Energy integrates advanced liquid cooling technology with high-performance battery cells, offering an ideal solution for energy-intensive scenarios.

The 125kW 261kWh Liquid-Cooled Battery Energy Storage System by GSL Energy integrates advanced liquid cooling technology with high-performance battery cells, offering an ideal solution for energy-intensive scenarios.

The 125kW 261kWh Liquid-Cooled Battery Energy Storage System by GSL Energy integrates advanced liquid cooling technology with high-performance battery cells, offering an ideal solution for energy-intensive scenarios. Each liquid-cooled cabinet houses five 314Ah battery modules, with each module.

The SolaX ESS-TRENE Liquid Cooling is a high-efficiency C&I energy storage solution featuring multi-level protection (IP55) and liquid thermal management for enhanced safety. It achieves 99% efficiency with modular scalability (up to 3.44MWh) and supports AI-powered energy optimization via SolaX.

The STORION-LC-TB125 is a 125kW/261kWh all-in-one liquid-cooled energy storage system for commercial and industrial use. With a 314Ah LFP battery (95% DOD on-grid, 90% off-grid) and IP55 design, it supports up to 50 units in parallel on-grid and 2 off-grid. Its intelligent fire protection and

Its advanced control modes provide flexible energy management, enabling seamless integration with wind power, photovoltaic systems, and other energy storage components. If playback doesn't begin shortly, try restarting your device. An error occurred while retrieving sharing information. Please try.

Individual pricing for large scale projects and wholesale demands is available. Equipped with an independent liquid cooling system, it achieves higher energy density and enhanced heat dissipation within a compact footprint, while offering advantages such as high efficiency, low noise, safety.

Maximize power reliability & savings with our 125KW/261KWH Liquid-Cooled Battery Cabinet. Featuring superior cooling efficiency for extended 10-year

lifespan, it enables critical equipment UPS protection and significant bill reduction through intelligent load shifting. Introducing the Advanced.
