# Lithium battery energy storage project halted

## Overview

---

Fullmark Energy quietly shuttered Swiftsure, a planned 650-megawatt energy storage system on Staten Island. The biggest battery project in New York has been canceled in a major victory for the nascent nationwide grassroots movement against energy storage development.

Fullmark Energy quietly shuttered Swiftsure, a planned 650-megawatt energy storage system on Staten Island. The biggest battery project in New York has been canceled in a major victory for the nascent nationwide grassroots movement against energy storage development.

Companies canceled, closed or downsized nearly \$8 billion in projects in Q1. Kore Power's \$1.25 billion facility would have expanded commercial battery cell production and brought 3,000 jobs to Buckeye, Arizona. The company canceled plans for the project earlier this year. Courtesy of Kore Power.

- A California lawmaker is calling for an end to the Morro Bay battery energy project following a fire at a lithium battery storage facility in Moss Landing, operated by Texas-based Vistra Energy. The City of Morro Bay has been collaborating with Vistra since 2020 on a proposal to transform the.

Fueled by a flood of government support in the Inflation Reduction Act (IRA), companies announced 19 US battery component or mineral extraction projects, representing \$6.7 billion in planned investment, during the first 6 months of 2023, according to data compiled by the Big Green Machine, a.

The La Mesa energy storage project in California proves just how high the stakes are when fire safety, transparency, and trust collide. This isn't just a story about one project that stalled. It's a blueprint for what goes wrong when emerging grid technologies meet real neighborhoods, and what we.

Fullmark Energy quietly shuttered Swiftsure, a planned 650-megawatt energy storage system on Staten Island. The biggest battery project in New York has been canceled in a major victory for the nascent nationwide grassroots movement against energy storage development. It's still a mystery why.

In the new political era, the US battery gigafactory 'power play' will see smaller vendors take a step back, write Anjali Joshi, market intelligence analyst at Clean Energy Associates (CEA). This continues our regular series of exclusive Energy-Storage.news Guest Blog contributions from Clean.
