Lithium battery pack customization

Overview

Who makes custom lithium-ion battery packs?

As a pioneer in future-ready power solutions, CMB is your trusted partner for custom lithium-ion battery packs. CMB's 21700 Li-ion battery packs offer advanced lithium-ion battery technology in compact and high-energy-density packaging. They provide superior power and longevity suitable for various applications.

Which lithium-ion cell is best for a custom battery pack?

The 18650 lithium-ion cell is one of the most popular choices for custom battery packs due to its high energy density, reliability, and versatility. To create the ideal custom battery pack with EGbatt, we'll need some key information from you: Let us know what your product or device is.

What is a lithium battery pack design?

The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements. This includes intrinsically safe designs for harsh environments, custom battery chargers, custom molded enclosures up to IP68 for extreme protection, and complex battery management systems to ensure safety and longevity.

Why should you choose CMB for a custom lithium-ion battery pack?

Whether for small or large orders, we offer competitive pricing and on-time delivery. As a pioneer in future-ready power solutions, CMB is your trusted partner for custom lithium-ion battery packs. CMB's 21700 Li-ion battery packs offer advanced lithium-ion battery technology in compact and high-energy-density packaging.

Why are custom lithium-ion batteries in high demand?

Off-the-shelf battery packs rarely meet the exact requirements of modern electronic devices. That's why custom lithium-ion battery solutions are in high

demand. Here are a few key reasons: Size and Dimensions: Standard batteries often don't fit perfectly into electric vehicles, portable electronics, or specialized devices.

What is a custom battery pack assembly service?

CMB's custom battery pack assembly services involve evaluating battery chemistries, casing design, and management systems based on customer needs. The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements.
