Battery licensing begins as 60 MW milestone nears, and 4 GW of storage proposals await review. North Macedonia has issued its first two licenses for battery energy storage system (BESS) projects, with a combined capacity of 2.6 MW. These licenses were issued by the Energy Regulatory Commission.

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy Storage Project – North Macedonia's answer to the \$33 billion global energy storage industry [1]. Designed for tech-savvy policymakers and.

The Oslomej solar park, operated by Fortis Energy, is getting a battery system of 62 MW in capability. The Turkey-based company hired Pomega for the investment. It would make the second-largest photovoltaic unit in the Western Balkans a hybrid power plant. Energy Storage Figure I.2: Energy.

YEPP Power's Strong Contribution to the Western Balkans' Largest Solar Storage Project Under the investment of Mey Energy, YEPP Power — in collaboration with China-based Cubenergy — is building a 60 MW energy storage system in North Macedonia. At YEPP Power, we are proud to announce our first major.

Power utility Elektrani na Severna Makedonija estimated that it requires EUR 3 billion by 2040 to replace electricity from its lignite-fired power plants.

According to member of the Board of Directors Ivan Stojanovski, the state-owned company is preparing investments in gas power plants, solar.
