# Malaysia Energy Storage Charging Station

## Overview

---

KUALA LUMPUR – 24 Oct 2023 – EV Connection Sdn Bhd (EVC) and Gentari have launched the very first EV charging station that comes with its own battery energy storage system (BESS) in Southeast Asia. Where is Malaysia's first energy storage system for EV charging stations?

Malaysia has its first energy storage system (ESS) for electric vehicle (EV) charging stations. Energy company Gentari said it and highway operator Plus opened a fast-charging modular and portable station with BESS at the Behrang lay-by on the North-South Expressway, Malaysia's main highway.

Who is launching the first battery energy storage system in Malaysia?

Inauguration of the first BESS. State-owned renewables company Gentari will partner with charge station specialist EV Connection to operate the system. Image: Pixii Malaysia's minister of works has celebrated the inauguration of the country's first-ever battery energy storage system (BESS) supplied to an electric vehicle (EV) charging station.

Which EV charging station has its own battery energy storage system?

KUALA LUMPUR – 24 Oct 2023 – EV Connection Sdn Bhd (EVC) and Gentari have launched the very first EV charging station that comes with its own battery energy storage system (BESS) in Southeast Asia.

Why do we need charging stations in Malaysia?

"Charging stations is an area where our systems create immense value. The usage of charging stations varies widely, and managing demand peaks directly through the grid is challenging," Pixii CEO Kenneth Bodahl said. "This has especially been a concern in Malaysia."

Who owns EV charging units in Malaysia?

EV charging solutions company EV Connection ordered the units, and they will be operated in partnership with Gentari, which is a renewable energy

company owned by Petronas, a Malaysian state-owned business also known as National Petroleum Limited.

Where is Pixii energy storage installed in Malaysia?

The installation in Malaysia is located along the North-South Expressway, Malaysia's main highway. Pixii has sold energy storage systems for an additional seven fast-charging stations that will be installed in their regional charging network.
