

## A-Core Container

# Manufacture of solar automatic water pump inverter

## Overview

---

What is a solar pump inverter?

A solar pump inverter, also known as a solar variable frequency drive (VFD), helps in converting the direct current of a solar panel into an alternating current. It drives various AC motor water pumps like a centrifugal pump, irrigation pump, swimming pool pump, and deep well water pump.

Who is the solar water pump inverter manufacturer?

PHAETON factory established in Shenzhen China in 2014, specialized in the design, develop, and manufacture of Hybrid solar water pump inverter, Variable Frequency Drive, 1phase 220V to 3phase 380V converter, providing energy-saving solutions for agricultural irrigation, livestock watering, remote water supply and Industrial automation control.

How does a solar pumping system work?

Solar pumping system converts solar energy directly into electric energy, and then drives motors to drive water pumps to pump water from deep wells, rivers, lakes and other water sources. The system consists of solar panels, solar pump inverter and water pump.

What is a Veichi solar water pump inverter?

- Constant pressure water supply solution. VEICHI solar water pump inverter is a high-efficiency solar water pump controller which can make full use of solar energy to drive water pumps for agricultural irrigation, water supply system, fountains, groundwater lowering and etc.
- Ingenious design -- small and exquisite inverter modules;

What type of power supply does a solar pump inverter use?

The input can be a solar DC power supply (160-450VDC, 350-800VDC), also single-phase solar pump inverter, or a three-phase AC power supply (220V, 380V, 400V, 460V, 480V), built-in MPPT control system to increase the output

power of PV array, ideal for remote and dry areas.

Which solar water pump inverter is best?

With modular design and IP65 protection, VEICHI SI30 solar water pump inverter is highly praised by customers. SI22 solar water pump inverter is cost-effective and economical, small and exquisite, palm-sized, greatly saving installation space and transportation costs.
