Modern energy storage equipment in Eastern Europe

Overview

What is energy storage Europe?

EASE will now be known as the Energy Storage Europe association, with a new identity designed to give the sector a stronger visibility. This transformation marks a significant milestone as the association approaches its 15th anniversary and reflects the central role that energy storage now plays in Europe's energy future.

What is the European energy storage inventory?

In March 2025, the Commission launched the European Energy Storage Inventory, a real-time dashboard that displays energy storage levels across different European countries. It is the first European-level tool of its kind and offers energy storage data across a full range of technologies.

Is there a market for large-scale battery storage in Central Europe?

In many countries in Central Europe, the market for large-scale battery storage is growing rapidly. The drivers are diverse, but there are still obstacles, as Eliza Stefan, Sales Manager BESS for Central & Eastern Europe, Jinko EES, points out.

How many energy storage projects are there in Europe?

There are 147 energy storage projects under construction in Europe, with a total capacity of 14 GW, according to the European Energy Storage Inventory, launched by the European Commission. The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe.

What is the energy storage Europe rebranding?

The European Association for Storage of Energy (EASE) today announced a rebranding to better reflect the rapid evolution of the energy storage role in the energy storage system. EASE will now be known as the Energy Storage

Europe association, with a new identity designed to give the sector a stronger visibility.

What is energy storage Europe Association?

Energy Storage Europe Association is actively shaping the legal and R&D funding framework for energy storage at EU level. Members gain direct influence in the European decision-making process. Members benefit from the Energy Storage Europe Association's expertise and technical know-how, and they can participate in EU-funded research projects.
