Mongolian energy storage cabinet exports

Overview

What are the top 10 exports of Mongolia?

The top 10 exports of Mongolia, as per Mongolia export statistics and Mongolia export data by HS code, in 2024-25, include: Mineral fuels and oils are the top export product of Mongolia, bringing in an impressive \$9.02 billion in revenue. The country is rich in natural resources, making it a major player in the global energy market.

Can Mongolia sustain its domestic electricity demand?

Mongolia has the potential to sustain its domestic electricity demand through renewable energy sources such as solar, wind, and hydro. It should also view exports of renewable energy into neighboring countries as an alternative source of economic security. Energy as Electricity.

How can Mongolia tackle its energy and economic security concerns?

Notably, Mongolia can tackle both its energy and economic security concerns with one approach. Mongolia has the potential to sustain its domestic electricity demand through renewable energy sources such as solar, wind, and hydro.

How much energy does Mongolia produce?

As of 2018, the Energy Regulatory Commission reported that close to 93 percent of Mongolia's power plants were coal-fired, while only 7 percent generated renewable energy. Furthermore, Mongolia produces just 80 percent of the total electricity needed domestically and imports the other 20 percent from Russia.

Does Mongolia have a good energy policy?

A failure to recognize the impact of mineral resources such as coal and copper on Mongolia's energy policy is deeply flawed and potentially dangerous. According to data from the Mongolian National Statistics Office, last year 86

percent of the country's exports were raw materials, including coal, copper concentrate, and gold.

Can Mongolia's Energy Security be separated from broader concerns?

Here again, Mongolia's energy security cannot be separated from broader concerns. Telmen Altanshagai is a graduate student at the School of International Service, American University in Washington D.C. completing her master's degree in Global Governance, Politics, and Security. Ms.
