

A-Core Container

Morocco lithium battery bms manufacturer

Overview

The parent company, COBCO, is Morocco-based and is the fruit of a partnership between Al Mada and China's CNGR Advanced Materials. Which Chinese companies are making batteries in Morocco?

Beyond COBCO, several other Chinese companies have committed to battery material production in Morocco. Gotion High Tech is constructing Africa's first gigafactory in the country, a \$6.5 billion investment with operations expected to begin in Q3 2026, while BTR New Material Group is planning cathode production in the same region.

Why is Morocco launching a lithium-ion battery plant in 2023?

It strengthens Morocco's position in the global EV battery supply chain and supports the localisation of key components for electrification. The plant, first announced in 2023, has initially begun production of two critical components used in lithium-ion batteries: nickel-manganese-cobalt precursors and cathode materials.

Does Morocco have a lithium battery industry?

With the increasing demand for lithium batteries worldwide, the Moroccan government's initiative to attract investments in the lithium battery industry has gained significant traction. One of the latest developments in this sector is the investment by BTR New Material Group in Morocco.

Will BTR build a lithium battery cathode material project in Morocco?

[next] BTR plans to construct a lithium battery cathode material project in Morocco with an annual production capacity of 50,000 tons.

Does Morocco have a battery factory?

Morocco already hosts vehicle assembly plants from Renault and Stellantis and, according to Reuters, reported a record 157 billion dirhams (about €15 billion) in automotive exports in 2024—a 6.3% increase year-on-year. Beyond

COBCO, several other Chinese companies have committed to battery material production in Morocco.

What is BTR new material group doing in Morocco?

One of the latest developments in this sector is the investment by BTR New Material Group in Morocco. This strategic move aims to boost the Moroccan lithium battery gigafactories industry and position the country as a key player in the global clean energy market.
