

## A-Core Container

# Morocco pack lithium battery

## Overview

---

Why is Morocco a good place to buy lithium batteries?

Morocco's strategic location at the crossroads of Africa, Europe, and the Middle East provides a competitive edge in the global market. The country's proximity to major markets offers logistical advantages, facilitating the transportation and distribution of lithium batteries to key regions around the world.

Is Morocco a good country for battery production?

In addition to abundant phosphate reserves, Morocco also possesses metal resources like cobalt and lithium needed for battery production and has cost advantages. Industry estimates suggest that producing lithium batteries in Morocco offers a 36% cost advantage compared to other countries.

Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.

What's going on with EV batteries in Morocco?

The battery industry chain centered around LFP is forming rapidly. In June this year, the Moroccan government announced that Gotion High-Tech would invest \$1.3 billion (US) to build a gigafactory for EV batteries.

Will Huayou Cobalt & LG Energy Solution Co-build a battery plant in Morocco?

Huayou Cobalt and LG Energy Solution will co-build a plant in Morocco, one for 50,000 tons of LFP annually and another for 52,000 tons of lithium conversion annually. In addition to abundant phosphate reserves, Morocco also possesses metal resources like cobalt and lithium needed for battery production and has

cost advantages.

Can Morocco be a global leader in battery manufacturing?

By embracing the clean energy transition and positioning itself as a global leader in battery manufacturing, Morocco can drive economic growth, create jobs, and contribute to a more sustainable future for generations to come.
