# Morocco s first battery energy storage project

## Overview

---

Morocco is set to make history as the host of Africa's first battery gigafactory — a \$5.6 billion project spearheaded by China's Gotion High-Tech. Located in Kenitra, this facility will not only supply batteries for electric vehicles (EVs) and renewable energy storage .

Morocco is set to make history as the host of Africa's first battery gigafactory — a \$5.6 billion project spearheaded by China's Gotion High-Tech. Located in Kenitra, this facility will not only supply batteries for electric vehicles (EVs) and renewable energy storage .

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW. Furthermore, the action is in line.

According to Official Account @Storage Discover, according to a report on the website of the Ministry of Commerce of China, to enhance its energy storage capacity, the electricity branch of Morocco's National Office of Electricity and Drinking Water (ONEE) has recently issued a letter of intent for.

Morocco is set to make history as the host of Africa's first battery gigafactory — a \$5.6 billion project spearheaded by China's Gotion High-Tech. Located in Kenitra, this facility will not only supply batteries for electric vehicles (EVs) and renewable energy storage but will also redefine.

Morocco is accelerating its energy transition by issuing a global call for expressions of interest to build two large-scale battery storage facilities. The projects are spearheaded by the Moroccan Agency for Sustainable Energy (MASEN) and Morocco's national electricity company ONEE. On May 20.
