# Mozambique joins the home solar power generation

## Overview

---

Rows of slanting solar panels sprawl across 500 acres in central Mozambique, powering tens of thousands of homes and businesses with clean, renewable energy. Mocuba is Mozambique's first large-scale solar power plant—and a testament to the country's growing commitment to renewable.

Rows of slanting solar panels sprawl across 500 acres in central Mozambique, powering tens of thousands of homes and businesses with clean, renewable energy. Mocuba is Mozambique's first large-scale solar power plant—and a testament to the country's growing commitment to renewable.

Mozambique can become one of Africa's leaders in clean energy production and is on track to meet its 2030 universal electrification target. Expected total energy-transition investment between 2024-2050: USD 80 billion Current share of renewables in total power generation: 70% Expected share of.

Mozambique has substantial solar power potential (23,000GWe) yet only 83MWe of installed capacity (representing 2% of the total 3623MWe generation capacity). Meanwhile, 44% of the population has electricity access, making Mozambique one of the least-electrified countries. Efforts to scale-up of-grid.

In a new monthly column for pv magazine, SolarPower Europe describes how Mozambique may take full advantage of its huge solar potential by implementing its recently launched Renewable Energy Auctions Programme for large-scale projects, while also pushing for more off-grid renewables in remote.

strative posts. Mozambique's population is approximately 29 million in 2017, 70% Bank, 2017)2 sets an official target of 100% electrification by 2030, in ,

about 4 million households, mostly with incomes of less than \$2 a day, are likely to remain un-electrified at the current rate of.

The new agreement supports Ignite's goals of deploying more than 300k solar home systems in the coming years To reach large-scale impact, we must combine capital support with smart, digital, and last-mile operations. We are excited to share this vision with the BRILHO Program" MAPUTO, MOZAMBIQUE.
