Is Myanmar ready for solar power?

With a solar power probable capacity of 51 Terawatt-hours annually, it has barely scratched the surface of its potential. However, things are looking up for Myanmar's solar prospects if recent developments are anything to go by. Despite continuing political instability, the government of Myanmar recently completed a 1 Gigawatts solar tender.

Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Does Myanmar have reliable electricity?

Currently, over 50% of Myanmar's population has access to reliable electricity. This electricity penetration rate is a considerable improvement compared to the status quo a decade ago. What role does the country's solar capacity play in the rise in the number of individuals with access to electricity?
